

## LUCANIA SAFE AT QUEENSTOWN

The Missing Cunarder at Last Sighted at Cast-net Light Late This Afternoon.

## HAD SLOW PASSAGE

It Is Believed That the Fog and Bad Weather Was the Cause of Delay.

(Special By Scripps-McRae.) Queenstown, Jan. 31.—The missing steamer Lucania of the Cunard line about which much anxiety has been felt was sighted late this afternoon off the Eastnet light and is reported as safe by the Lloyds.

A Day Behind The Cunarder Lucania was one day behind its regular scheduled time for arrival at Queenstown and much anxiety was felt owing to the experience of the St. Paul on its recent trip across the Atlantic.

Is All Right The owners of the boat claim that it is all right and that they have no doubt that the fog and rough weather have forced the captain to go at half steam during the entire trip. It had a large passenger list.

## POLES COMPLAIN OF THE GERMANS

List of Grievances Are Presented to the Reichstag and Redress Asked For.

Berlin, Jan. 30.—(Special).—Dr. von Dzialowski-Pompan, in the reichstag today, interpellation against Poles, declared that the Poles were eligible to volunteer for one year's service in the army, but were compelled to serve two years, as they were punished for slight offenses in the gymnasium work by prolongations of their term of service.

The most painful thing to the Poles the speaker continued, was the effort to eradicate their language. He said the government, disregarding the terms of Count Radzinski's bequest of his famous library to Posen, had appointed a German librarian, "a person who did not know one word of Polish, though the will stipulated that the librarian should be a Pole." He asserted that a Polish girl who had rescued a drowning boy was not given the Prussian rescue medal, "the reason quietly alleged by the authorities being that her father voted for Polish candidates."

In conclusion Dr. von Dzialowski-Pompan referred to the alleged German boycott of Polish merchants and the invasion of the Polish churches by the gendarmes, and said, "that German letter carriers wrote insulting remarks on letters addressed in the Polish language."

Interior Secretary von Posadowski-Webner replied that the Prussian Polish provinces would remain Prussian so long as a soldier could be placed in the field.

## STATE EMPLOYEES JOIN IN STRIKE

Three Hundred Engineers and Firemen in Holland Quit Their Work.

Amsterdam, Jan. 31.—(Special).—Three hundred engineers and firemen belonging to the state railroads have joined the strike of the employees of the transportation companies. The Railroad Employees' Union has passed a resolution to the effect that if the Dutch Railroad company persists in carrying the dock companies' freight it will proclaim a general strike of railroad and tramway employees throughout the country. About 17,000 men would be involved.

## WILL PETITION LEGISLATURE

Milwaukee Workmen Want Bill For Municipal Coal Stations Milwaukee workmen and their friends are today circulating petitions to the state legislature for the purpose of having a law passed which will establish local municipal coal stations which in the future will do away with any fear of a repetition of the present coal famine in cities where there are a great number of poor. The petition will be thoroughly circulated and will then be sent to Madison.

## MAY CONFISCATE THE IRON MINES

Norway and Sweden Are Talking of Taking Radical Steps as to Works.

London, Jan. 31.—(Special).—A unique situation in the iron trade of Europe is imminent. It is feared that the government of Sweden and Norway is about to take over the iron mining industries of those countries, with the intention of subsequently extending national ownership and production of all the other natural resources of the country. The movement is popular, because the people of the Scandinavian peninsula fear that these industries will fall into the hands of private trusts and monopolies. The importance of this prospect is emphasized by Editor Queen of the Ironmonger, who calls attention to the value of Swedish iron ore for steel manufacturers and to the large copper deposits of Sweden.

England and Canada import large quantities of Swedish iron ore, and the Swedes are trying by the only available means to save their great industrial natural resources from being "Morganized," as Mr. Queen calls it.

## GERMAN NOBLES VISIT AMERICA

Many Will Be Present at the Unveiling of the Great Statue in Washington.

Berlin, Jan. 31.—(Special).—The Lokal Anzeiger today confirms the report that a deputation of German officers, headed by Field Marshal Count von Waldersee, may attend the unveiling of the Frederick the Great statue at Washington. In official circles here it is admitted that Count von Waldersee may go to the United States, but this, it is added, has not yet been decided. The date of his proposed departure is also uncertain. June has been mentioned, but that month is regarded as being too late in the summer, and the unveiling probably will be postponed until the autumn.

## A PROMINENT REBEL TO HANG

Cape Colony Court Decide That Visser Must Be Hung for His Lawless Acts.

(Special By Scripps-McRae.) Capetown, Jan. 31.—Despite the fact that it was said that all rebels of the Cape Colony who surrendered should be treated with clemency and that all should be done that was possible to conciliate the people, orders have been issued for the hanging of one of the leaders named Visser.

## HE LED THE BOERS

Was One of the Most Fiercious of All the Guerrilla Leaders Fighting.

Visser was one of the most decided rebels that led the Burgers in the Cape Colony and his capture was considered as one of the causes of the breakdown of the Boers in this section of the country.

## GERMAN OFFICIAL RESIGNS OFFICE

On Account of the Government's Objection to the Management of Southern Africa.

Berlin, Jan. 31.—(Special).—Vice Governor von Estorf of German Southwest Africa has resigned, and is returning home because of a disagreement in Berlin with his policy toward immigrant Boers in permitting the establishment of Dutch Reformed congregations under the authority of the Cape Town presbytery. The colonial office regards this policy as dangerous, fearing that the Boers may make an attempt later to establish their independence.

Vienna, Jan. 31.—(Special).—In the reichsrath today, when the Brussels sugar convention came up for debate many beet sugar growers from Bohemia shouted interruptions from the galleries. They were promptly expelled but again sought to enter the chamber and it required force to keep them out. There was a tremendous uproar in the chamber and the sitting was suspended.

## STUDENTS AGAINST TILLMAN

Invitation to Senator from South Carolina to Lecture at University of Wisconsin Arouses Opposition.

Madison, Wis., Jan. 31.—(Special).—Much opposition has developed among the students of the University of Wisconsin against having Senator Tillman of South Carolina speak before them. Tillman was engaged by the student oratorical association as a lecturer. His encounter in the senate and the crime of his nephew, Lieut. Gov. Tillman, have raised the fuss. Under the caption: "Do We Want Tillman?" the Cardinal, the university daily, says: "We have no quarrel with Mr. Tillman, and if he came here he should have a respectful hearing, but the propriety of having the fiery southerner promulgate under university auspices his well-known ideas of southern problems is doubtful."

The fight was a hard one, but the constabulary ultimately won by a daring charge. One hundred and fifty ladrones surrendered at Ormoc the following day. The district had been disorderly, and it is believed that the surrender of these men will lead to its pacification.

## WHEELER MAKES HIS EXODUS

University Instructor Gets \$150 and Leaves For St. Paul.

Madison, Wis., Jan. 31.—(Special).—Arthur Stanley Wheeler, who was forced to resign from the University faculty because of alleged intemperance habits, left yesterday for St. Paul, where, it is understood, he has secured a position in a mercantile establishment. Yesterday he received a letter containing a check for \$150. He asked Landlord Hunt of the Avenue hotel, where he was staying to cash it, but the hotel man had shortly before that sent the day's receipts to the bank and was unable to accommodate his guest. Wheeler then went out and got the money from a merchant whom he knew. Before leaving the city Wheeler bid the hotel attaches goodbye and generously tipped the bell boys and others who had served him.

## UNCLE SAM HAS MADE ALLIANCE

Together With Russia and France He Will Keep Watch of Venezuela.

Washington, D. C., Jan. 31.—(Special).—In the opinion of students of international politics the diplomatic situation growing out of affairs in Venezuela is extremely acute. There are signs of the creation of two world wide coalitions, the results of which may some day be to render useless all existing geographies.

The three allied nations, Germany, Great Britain and Italy, in determining upon a concert of action in Venezuela, have succeeded in uniting their interests to such an extent that other nations are being forced in self defense to form counter combinations.

The latest hitch in the Venezuelan negotiations grew out of the fact that Great Britain, Germany and Italy insisted upon securing preferential treaties. Merely because they took warlike steps and were willing to bully a little nation, they now demand of preferred creditors, so that all the other nations of the world having claims against Venezuela would be required to wait until the allies were paid to the last farthing.

## ITALY OPPOSES MAKING EXHIBIT

Does Not Believe in Official Recognition of the St. Louis Exposition.

Rome, Jan. 31.—(Special).—In the chamber of deputies today Signor Fucini, under secretary of commerce, opposed the official participation of Italy at the St. Louis exposition because, he said, it would be necessary to ask for an appropriation of over \$200,000, with no corresponding advantage, as the "almost prohibitive duties of the United States keep out Italian products." The under Secretary, however, promised the government's moral support and encouragement of private exhibits.

Signor Santini, replying, said Italy should exhibit for the dignity of the state and in return for the sympathy and help extended by the United States government to emigrants in the United States.

## ALLEGED SWINDLE IS EXPOSED

Claims Made That the Rock Island Was About to Defraud the Public.

(Special By Scripps-McRae.) Chicago, Ill., Jan. 31.—J. Hamilton Lewis, a local stockholder of the Chicago, Rock Island and Pacific road, has asked that a receiver be appointed for the taking possession of the road, the stocks and bonds of the company to prevent the consummation of an alleged illegal scheme of reorganization for the alleged purposes of defrauding the stockholders. The defendants in the action are Marshall Field, R. R. Cable, Wm. H. Moore, Wm. Leeds, Daniel Reid, Henry Frick, Ogden Mills, James Moore, the Central Trust Co. of New York and other directors of the company. In the petition Lewis avers that a scheme is on foot to swindle the public by the sale of a stock that is not half the value that it is claimed for it.

## DIAMONDS GIVEN MRS. CHAMBERLAIN

## FIGURES TELL A TRUE STORY

TAXPAYERS' INVESTIGATION OF  
ASSESSMENTS, INTERESTING.

### WHERE DID THE MONEY GO?

But Very Little Beyond Debt, Has the  
City to Show for Expen-  
ditures

To the Editor:  
I became interested today in looking over my tax receipts for several years back. If you will kindly bear with me for a few minutes I will indulge in some figures which will show you the rate of increase in taxes from 1894 to and including the year 1902. The following table shows the rate of our city, state and county up on \$1000.00.

1894	.....	\$21.40
1895	.....	26.30
1896	.....	23.52
1897	.....	23.21
1898	.....	24.31
1899	.....	26.39
1900	.....	23.44
1901	.....	14.71
1902	.....	16.57

At once you may inquire how the rate became so much smaller in years 1901 and 1902. In 1901 the assessed valuation was increased from half valuation to full valuation, for example, in 1894 of your property was assessed \$1000, you would pay \$21.40 tax. If they double your valuation, they would have assessed you to \$42.40. That is if they increased the levy one-half. So that in 1902 when they doubled your assessed valuation and raised a levy of \$111,000 the tax really shows the rate in 1901 at \$29.42 and in 1902 at \$33.14 as compared with the other figures, which are computed at half assessed valuation.

You will really notice our taxes have increased from \$21.40 to \$33.14 or more than one-third.

Let us see if we can explain any reason for this. In 1894 the last year of the Peck (Dem.) administration, they only levied about one-half of one per cent. state and county tax. So naturally next year there was a great deficiency and the state and county taxes raised our total taxes about \$5.10 per thousand.

In 1897 our city issued \$55,000 worth of high school bonds which will increase the rate but a small per cent, because we only paid \$3,000 worth of those bonds each year together with the interest on those remaining. In 1899 we purchased the stone crusher plant and also paid the Slick judgment.

In 1902 we issued \$65,000 worth of city hall bonds. In 1902 we increased the city hall bonds \$25,000.

Of course we have reduced the high school bonds to \$33,000 and paid \$3000 on last year's city hall issues bearing at present the city of Janesville under a \$120,000 bonded indebtedness.

I naturally went to the city treasurer's office to see what we had to show for this enormous increase in taxes and was there met by the rejoinder that "it was up to you to tell." He stated, "We have the high school, city hall and library site now and to pay for later."

You will notice that city property assessed accurately at its full value will be taxed at 1.57 per cent, therefore decreasing the rate of interest on city property investments at the rate of interest or making it more profitable to rent than own property here.

Under the present circumstances it will become necessary to raise an annual budget of at least \$100,000 to defray city expenses. With a \$10,000,000 assessment at full valuation and a constitutional limitation of 5 per cent. under the old law or half valuation or under the present system of full valuation, thus increasing in fact to 10 per cent. opens the door for a dishonest city administration to put a fender of ten per cent. upon your property. We are at the mercy of those who can confiscate our property if they so desire.

We are certainly in no position to invite outside industries to locate here. Taxes are too high here to expect parties to take up residence.

What have we to show for all this? We have plenty of street improvement paid for by the property abutting. A non-economical administration is imperative.

They will have more sample lights in a short time and all of them will be given a thorough trial and the kind that furnishes the best light will be substituted for the lights now in use on the street corners. The Electric Co. was given permission to put in an experimental circuit to determine which was the best light. When the new lights are in place the aldermen will be asked to inspect them and

## ICE BOATS RACE AT KOSHKONONG

Many Janesville Men Are at the  
Lake, Enjoying the Rare  
Sport.

A number of men from this city went to Koshkonong today to witness the ice boat race. Entries for the cup race were received from Roy Saunders, George M. McKee, George Sherman, Tony Brown and P. Short. George Sherman has two boats and both of them were entered in the race. Mr. Saunders won the cup last year and thinks he can hold it for another year. The Carcajon club members are backing George M. McKee to bring back the cup, while the knowing ones think Tony Brown should be the lucky one and that he has the fastest boat on the lake.

## COMPELLED TO PAY A FINE IN ROCKFORD

Three Colored Men from Janesville  
Had Trouble in an Illinois  
City.

Three colored men from Janesville stopped over an hour in Rockford Thursday on the way to a dance at Belvidere. They became entangled with the police before they had been in the city many minutes. When they called for oysters at Beath's restaurant and were notified that the supply had given out, they became abusive and called the proprietor all sorts of names. When Mr. Beath ordered them to leave, they started in to fight him. Officer Charles Cavanaugh arrested the trio and took them to police headquarters. They pleaded guilty to the charge of disorderly conduct and were assessed a fine of \$4.50 each, which they paid and continued on their way to the dance.

### PINAFORE, THE OPERA

Have You Heard Pinafore?.. What  
Never?.. Well Hardly Ever

The production of Pinafore by the St. Cecilia society of St. Mary's church to be given on February 9 and 10 at the Myers Grand Opera House will reproduce once more that grandest of comic operas that ever came from the pens of the famous composers, Gilbert and Sullivan. This opera never grows old by years and is always the same charming musical comedy it was when first produced and took the world by storm. Local singers and local conditions will only add zest to the production which promises to be one of the best staged and most complete of any amateur production given in Janesville for years past.

### 12,000 SHOES PER DAY

This is the Daily Capacity of the  
Mayer Boot & Shoe Co., Milwaukee, Where the World's  
Best Shoes are Made.

Twelve thousand shoes, 6,000 complete pairs, turned out in one day, by a single establishment, would have seemed almost like an impossible task a decade ago, yet this achievement, in this age of great accomplishment is recognized only as the result of modern energy and push. The Mayer factory, still comparatively young, has grown much faster than its competitors because it has adhered with scrupulous accuracy to the principle laid down by its founder, and that was to make the very best shoes by employing the best materials and the most skilled labor. A great advantage resulted in being at the home of the great leather market, Milwaukee proudly boasts of the largest tanneries in the world. All the choicest hides are quickly acquired by the expert buyers of this great establishment and made into millions of pairs of shoes that eventually find their way to every remote corner of the United States where the Mayer trademark, stamped on every sole, is becoming recognized as a guarantee of a new kind of superior shoes.

## ...Forty Years Ago...

Janesville Gazette, Jan. 31.—1863.—Thurlow Reed has retired from the Albany Evening Journal. He says he differs with the administration as to the best means of crushing out the rebellion and that he withdraws rather than live in strife with those whom he has been friends. It was always supposed that he was a Steward supporter and that he favored the element of slavery at any cost. The withdrawal of Mr. Wood from public life, we trust, is the abdication and downfall of the policy that he represents and the substitution of vigorous and influencing measures in the conduct of war. We hail it as a good sign.

The democrats of the state have called a convention to nominate a candidate for chief justice of the state in place of Judge Dixon to be held at Madison on the 25th of Feb.

W. B. Brittan of the Eight regiment stationed at Corinth, Miss., has an interesting letter dated Jan. 17. "Messrs. Editor: After marching and counter marching over three hundred miles south of here we find ourselves stationed after an absence of ten weeks in the great cemetery of Corinth; for indeed all that is to be seen of the place that was Corinth are fortifications and graveyards." He goes on to state that the fortifications are the strongest that they have yet seen and that ten thousand men inside could laugh at a fifty thousand attacking force with ease and comfort. He tells of the forced marches and moves by train called strategy. He states that since the 18th day of August, 1862 they have not stopped at any one place three

## JANESVILLE LOST ITS FIRST GAME

CARROLL COLLEGE VICTORS IN  
BASKET BALL GAME.

### THE SCORE STOOD 25 TO 23

Local Team to Play Waukesha High  
This Evening, in the Spring  
City.

Last night at Waukesha the Carroll College basketball team defeated the Janesville team by a score of twenty-five to twenty-three. The game was hotly contested from the start and the local team fought a hard but losing battle. No sooner had they tied the score of the Carroll team than that team by a series of desperate plays would make another point and Janesville would have to fight its way past the new mark.

Almost Won  
Carroll secured the lead at the start and for a few moments played the High school boys off their feet but they quickly rallied and evened up the score doing so repeatedly. A few moments before time was called the score was tied by hard playing but Carroll threw two goals from the foul line and won.

Play Waukesha High  
This evening the Janesville boys will try for honors with the Waukesha High and expect to win. The line up was as follows:

JANESVILLE. Position. WAUKESHA.  
Shoemaker.....forward.....Dyer  
Smith.....forward.....Kerr  
Smith.....center.....Zochel  
Sturges.....guard.....Shenway  
Wilbur.....guard.....Cook  
Summary of the score is as follows: Janesville, 25; Waukesha, 23. Goals, Carroll College, 21; Carroll College, 2; goals from field, Janesville, 15; Carroll College, 9.

### CITY NEWS NOTES

Delayed The Car: A short circuit in the motor box of one of the inter-urban cars laid it up for an hour last evening. The damage was repaired by one of the company's electricians from Beloit.

New Church For Edgerton: A new Catholic church costing about \$11,000 will be built in Edgerton during the coming season. The money to pay for the building of the church is being raised by subscription and about \$7,400 of this amount has already been pledged.

Crusher Receipts Ready: City Clerk Badger finished his report of the expenditures at the stone crusher during the last year. It includes all orders paid during the year 1902, although some of them are for work done in 1901, and not paid for until last year. The order will amount to about \$10,000. This report as well as the one on the city hall expenditures will be given to the Municipal League and will be published by them if by them.

Are Cleaning Up Some: The Isabel company are getting things in shape around the factory so that there will be as little delay as possible in getting started after the loss is adjusted. The stock of made-up goods and material is a total loss as far as the factory is concerned and the machines are in worse shape than was at first supposed. J. C. Page, one of the proprietors of the factory came up from Chicago last evening to look over the wreck and see about getting matters adjusted with the insurance companies.

Puts Fanning On Nights: Chief Hogan has decided to keep Officer Fanning on the streets nights hereafter and not trust so much to night watchmen. He will be on duty until four o'clock in the morning and will travel on both sides of the river. A number of storekeepers do not leave any lights burning at night. Chief Hogan suggests that all stores should have a little light in them, so that an Officer passing by can get a view of the interior. This should be done especially by people owning large stores that are some distance away from street lamps, and that have rear entrances opening on alleys.

ment had marched 1,200 miles.  
"Col. Murphy is under arrest at Memphis for the surrender of Holly Springs. The feeling of the regiment is against him as is the whole army." He also states the glad news that the men have just signed the pay roll for two months past and they will be paid tomorrow. He says: "After all it is better to be at home singing 'Brave Boys are They,' 'Star Spangled Banner' and 'Dixie' than to be sitting here in the mud and sleeping on the hard wet ground." He adds a postscript: "I see several large boxes for the 12th battery. By the time they get them they will be musty."

The press dispatches report that affairs in Virginia are taking shape and tells of raids made by our troops into the enemy's country.

Foreign dispatches tell of the route of four thousand French in Mexico by the Mexican regulars the flight occurring in a fog.

The state legislature is in session in Madison and as usual are not doing an over amount of work aside from adjourning.

State drafts are a question that are much looked after these days by all able bodied men who have not yet enlisted and should have gone.

The ladies of the Presbyterian church are to give a festival next Wednesday evening in the Hyatt house.

## PRETTY WEDDING IN CALIFORNIA

Louise Lelfridge Became Mrs. Frank  
Gray, on January 19, at  
Long Beach.

The Long Beach Evening Tribune of January 19 has the following notice which will be read with interest by many in this city and vicinity:

At 12 o'clock today at the home of Mrs. C. F. A. Johnson occurred the marriage of Louise Lelfridge, of Boston, daughter of former ex-Mayor C. F. A. Johnson, and Mr. Frank Gray of this city. The wedding was a quiet affair and witnessed only by a few of the near friends and immediate relatives of the contracting parties. Rev. Pease, pastor of the Congregational church officiated.

Mr. and Mrs. Gray took the 12:40 Southern Pacific passenger train for a short trip into the mountains where they will spend the honeymoon.

## VETERANS RECALL THE DAYS OF '63

The Forty Years Ago Column Brings  
Back War Days to Many an  
Old Soldier.

Editor Gazette: We old Vets like the way of your printing war news. Keep on. I was very much interested in the account of Fredericksburg. I sat along the river in front and unrolled our batteries who were shelling the town making the way clear for our advance over the pontoon bridge, watching with the glass the enemy firing at us, and wondered how any sane general would order an attack against such works and against a hill too.

I was bothered by some comrades wanting my glass until a shell splattered dirt over us, then I was left alone. Some sharp shooters in a church steeple were having fun shooting; some gunners saw them and soon I saw the splinters flying and Mr. Johnnies concluded they had better vacate. At night while hunting for members of our regiment, we found the ground beyond the town well dotted with bodies and parts. I picked up one arm, carried it about twenty feet and matched it to a body wearing shoulder straps. But for the ravines to dodge into when charging over that ground our casualties would have been far greater than they were. I found Col. Conner and Major Knox stowed away up stairs in a building, each with an arm well shot. The buildings were well filled with the wounded. The second day we were glad to get back in our old quarters at Falmouth where we should have staid and let the rebels keep Fredericksburg. We gave up check-mate.

American Hulled Beans with tomato sauce are a deservedly popular bake of a deservedly popular brand of beans. American Hulled Beans are a departure from common beans. They give the rich food value of beans without the annoying flatulency so and sold by good grocers anywhere common to unhulled beans. Put up ready prepared in two pound cans at 15 cents.

Ent American Hulled Beans canned, ready baked; give twice the nourishment and cost no more than canned common beans.

### PENNED AND CLIPPED

Rose Melville, the actress who is well known through her impersonation of "Sis Hopkins," is ill with pneumonia at Detroit. The festive strawberry will soon make its annual appearance in this section, and as usual the first specimens will retail for about three cents apiece.

The oldest resident of St. Paul has gone insane through the death of his wife, who had been his life partner since 1845. A. L. Larpenteur is his name.

It is a curious fact that getting married seems to mean so much to the average girl, while to many men it apparently has little more significance than getting shaved.

An eastern paper remarks that "Even Hades has its mart set, so 'tis said." Which probably explains why the New York "400" are striving so industriously to reach that port.

Of course it was a mere "slip of the type" committed by the proverbially careless compositor, but nevertheless it looks funny enough to see The Menasha Breeze referring to "the state dairy and fool commission."

The solicitor who drew the marriage settlement between Miss Vanderbilt and the duke of Marlborough, R. H. Milward, of Birmingham, Eng., has been sentenced to six years' penal servitude for misappropriating trust funds to the amount of \$420,000. It is claimed that the Marlborough estates have not suffered.

To the disputed authorship of the great southern song, "Dixie," there comes another claimant, Will S. Hays of Louisville. He does not seek the whole credit for the song, stating that he was assisted by Charles I. Ward and David P. Faulds, recently deceased.

Because the men stewards of the Pitman Methodist church in New Brunswick, N. J., became lax in their duties, the pastor, Rev. D. N. Stafford, appointed women in their place, in some cases choosing the wife of the men deposed. The change, it is claimed, has operated to the benefit of the church.

Millionaires appear to turn as naturally and irresistibly toward the United States senate as birds do to their mates in spring time. The latest aspirant for fame in this regard is Thomas Lowry, the street car magnate of Minneapolis and St. Paul. He is said to be casting "sheep's eyes" at the seat now occupied by Moses C. Clapp.

## PAINE'S Celery Compound

Was Used and Effectrd a Wonderful  
and Glorious Cure.

Paine's Celery Compound comes to the aid of suffering humanity when the best efforts of physicians prove fruitless—when hopeless men and women are pronounced incurable. The grateful and happy testimony of Mrs. J. G. Mack, of Clear Lake, Wash., maintains the claim that, "Paine's Celery Compound makes sick people well." Mrs. Mack says:

"Several years ago I was stricken with nervous prostration, and two doctors declared that no medical skill could ever cure me. One of your books came into my hands just as I was very low with nervous prostration and congestion. After reading it, I asked and begged for Paine's Celery Compound. The medicine was procured for me, and you may think I am using exaggerating statements when I say that three bottles cured me, and made me feel like a new woman. My present condition of health I certainly owe to the marvelous virtues of Paine's Celery Compound. I cannot say enough in favor of this wonderful medicine; it is a Godsend to all weak, nervous people."

**OCCUPY NEW QUARTERS**  
E. J. Kent Will Have Model Establishment on Dodge Street

E. J. Kent will next month move his River street paint establishment to a newly remodeled shop on Dodge street at the rear of the new post office building. Mr. Kent will now devote his entire time to the paint contracting business in which he has been successfully engaged for many years in Janesville. The same force of expert workmen that Mr. Kent has had with him for years will be retained by him. His wall paper and glass business he has closed out to the Lowell Company. The new located shop is within a few doors of Kent & Crane's present location. Mr. Kent's reputation as a contractor needs no introduction to Rock county citizens who have been among his patrons for these many years.

### THE MAID'S REPLY

As you walk down our city's street,  
Just note the faces that you meet.  
The pimpled cheek, the sallow skin—

Then pass a week—again this face  
you meet.

But oh! how changed;  
Her cheek it has a youthful glow.  
Her lips are like the ruby red,  
Her eyes shine with a warm desire  
That shows to you love's youthful fire.

Now ask this maid what cured her ill  
She says: Why, sir, 'twas the Badger  
Pink Cascara Pills.

## Before the Footlights

"At Cozy Corners," with Adelaide Thurston in the star-role, is promised as a rare dramatic treat at the Myers Grand, Monday night, February 2nd. Miss Thurston has travelled very extensively this year both north and south, and has attracted more than usual attention. She has held

her good-bye in the corridor. I wish I could describe her as she looked without the aid of stage effects. You who saw her last night in her distinct triumph may realize how charming she is off the stage, that the wonderful voice of this charming little woman is even more vibrant, that her personality is ev-

public receptions on the stages of the theatres in many of the cities where she has played. She has been extensively interviewed and pictured by the newspaper writers. One of these, Anle Kendrick Walker, of the Birmingham, Ala., Age-Herald, among other things said: "She followed me to her door and into the corridor of the hotel and wanted to come to the elevator. But I bade

her sweetly, more winsome, that Adelaide Thurston on the stage is fully in keeping with all that is best in dramatic art, that Adelaide Thurston as herself fulfills an ideal. It has been said of her voice that it is like a caress. It has been said that her dear little face mirrors every emotion. Her soft good-bye rang in my ears after I reached the street. It was like a melody."

### SINGERS THEY HAVE MADE

Some Celebrated Folk Who Graduated From The Bostonians

An Interesting List, Dating From The Time of Geraldine Ulmer and Zelle De Lussan to Alice Nelson of the Present—Faith In Youth

The Bostonians, without intent have given the United States the most successful school for operatic study that this country probably has ever had, and from its ranks have graduated an astonishing number of well known singers. No other organization has done more, if as much, toward fostering singing talent, nor has any other done so much toward assisting American writers of opera. In the twenty-three years, dating from the founding of the Boston Ideals, these people have produced a long list of works by native authors, and are still looking for more. More than anybody else they are responsible for the present day fame of Reginald De Koven and Harry B. Smith; but, on the other hand, it may be said that Messrs De Koven and Smith have materially aided the Bostonians, for operas like "Robin Hood," are not to be found every day nor every year.

The Bostonians are partial to fresh young voices; they have faith in youth and its ambitions. This year they have at least three new singers who give promise of attaining more than ordinary distinction. They are Miss Olive Seale Moore, who is singing Alan-a-Dale; Howard Chamber, a worthy successor to Eugene Cowles; and W. C. Weeden, tenor. The most prominent of the new Bostonians is Geraldine Ulmer, the prima donna, one of the most beautiful singers in the organization has known—this is a sure to become a grand artist who is a front rank.

Glancing backward over the years dating from the organization of the Boston Ideals in 1879, one finds the

names of Marie Stone, Adelaide Phillips, Mathilde Phillips, Jessie Bartlett Davis, Camille d'Arville, Louise La Blanche, Helen Bertram and Fatmah Dlard. But these were stars before they joined the Bostonians. However among those who have graduated from the ranks of the Bostonians to positions as stars are Mary Beebe, who will be remembered only by the older theater-goers; Geraldine Ulmer, who subsequently was successful in London; Isabelle McCullough; Zelle De Lussan, whom this country heard last at Carmen in the Grau company's production of that opera three seasons ago; Juliette Cordyn; Agnes Huntington, whose name is a reminder of "Fatinitza"; Fannie Rice, Charlotte Macondo, who entered grand opera; Flora Finlayson, who died in San Francisco several years ago; Maud Ulmer, Margaret Reid, Eloise Morgan, Bertha Waltzinger, who has been here in opera many times in recent years; Hilda Clark of Leavenworth, Kan.; Edith Yerrington, who sang here first in "Jack and the Beanstalk," and subsequently in "The Burgomaster," Grace Cameron, one of the Bostonian beauties; Marcia Van Dresser, who deserted opera for the drama; Belle Harper, the chorus girl with the Della Fox curl, who is to sing in a new opera this season; Caroline Hamilton, Adele Rafter, Grace Reals, who was a member of Howard Gould's "Prisoner of Zenda" company, and the well known prima donna, Alice Nelson. Miss Nelson has been singing abroad, don't you know, has been favored by royalty and now is preparing for grand opera.

A worthy list of clever people, the over, and one of which the Bostonians feel proud. Geraldine Ulmer shared soprano roles with Miss Marie Stone (Mrs. W. H. MacDonald). Afterwards Zelle De Lussan was engaged, and the gossip says that she was in part responsible for the disruption of the Ideals. After leaving the Ideal, Miss Ulmer joined the company of D'Oyly Carte at the Savoy in London,

and created all of the leading soprano roles in the Gilbert and Sullivan operas written after her arrival. Early in the 80's she was married to Ivan Caryll, the composer.

Of the men among the Bostonians, less can be said than of the women. Messrs. Barnabee, MacDonald and Frothingham, all originals are still in evidence and may speak for themselves. Tom Karl and Edwin Hoff are teaching in New York City. Eugene Cowles is devoting his time to singing in concert.

Among the operas that the Bostonians have produced are De Koven and Smith's "Robin Hood," "Maid Marian," "Don Quixote," "The Begum," "The War Time Wedding," "The Pioneers," "The Ogalallas," "Prince Ananias," "The Maid of Plymouth," "The Knickerbockers," "The Viceroy," and "The Serenade," all of them of home manufacture. "The Begum" was the first of the De Koven and Smith operas, and they had to pay to produce it. In the days of the Boston Ideals, the repertoire included "Pinafore," "Fra Diavolo," "The Bohemian Girl," "The Musketeers," and "Fatinitza."

### CATARRH CURED BY DRY AIR

Hyomel Medicates the Air You Breathe, Kills the Germs and Cures the Disease

Hyomel cures catarrh thoroughly and permanently, because it reaches the smallest air cells in the head, throat and lungs, kills the germs causing the disease and drives it from the system. Hyomel goes to the root of the disease, destroys the cause, and makes permanent cures which can be effected in no other way. Breathe it for a few minutes four times a day and benefit will be seen at once. Continue this treatment for a few weeks and Hyomel will have cured you.

The Hyomel in the inhaler furnished with the outfit dries and sterilizes the air you breathe. It is a local and direct treatment for eradicating all catarrh germs in the mucous membrane and tissues and in this way cures catarrh in any part of the system. Used in connection with Hyomel Balm it has been successful in curing the worst and most deep seated cases of catarrhal deafness.

A. W. Clark of Everett, Mass., writes, "I have spent a fortune on different treatments for catarrh and could not hear across the table. After using Hyomel and Hyomel Balm for eight days I can hear as well as ever."

Stronger than any claims that can be made in an advertisement, is the fact that The Peoples' Drug Co. will give their personal guarantee with every Hyomel outfit they sell (a months treatment for \$1.00) to refund the money if the purchaser can say that Hyomel has not given satisfaction.

## THE SCHOOL OF EXPERIENCE

In a dilapidated old house, one evening not long ago, a middle aged man and his son sat by the fire, the father was talking about the wife and mother, whose remains had been carried out to the church yard that afternoon.

The father was shabbily dressed and his face bore the marks of disipation while the appearance of the son gave evidence of the fact, that his life was far from pure and wholesome.

This was the first evening in many years when the presence of the mother had been missed from the home, and while but little thought and care had been bestowed upon her, it was a new and changed experience.

She had been an uncomplaining wife and mother, exhausting every effort that love could suggest to keep the home in tact, sacrificing comfort in a vain hope to redeem the man who had promised to protect her, and to save the boy from a fate that seemed worse than death.

They were sober tonight, and as a flood of memory rushed in upon them, bitter remorse filled their hearts and they said, "If we could only have her back we would appreciate her as never before." But remorse came too late, and the outlook for life, so far as home was concerned, was cheerless and forbidding.

After calling up memories of earlier years the father said to the boy:

"John, I shall never reform, but I want you to stop drinking for you can't afford to wreck your life as I have done," to which John replied with some spirit:

"Never fear for me father. I am not an habitual drunkard, and never intend to be. I drink when I want to, and let it alone when I choose to. Of course it was a disappointment to mother, but she worried a great deal more about me than was necessary."

But the father had gone through the experience, and tonight as he took a retrospective glance, he remembered his own boyhood, and how the habit, formed in good fellowship, had grown upon him, until it became an absorbing passion. So he said to his son:

"My boy, I know more about life than you do, and I know more about you than you know about yourself. Some men can drink moderately, but I never could, neither can you. We both possess the same temperament, and habit with you and me means more than it does to people who are less intense, and not so easily influenced. I know that experience is the only teacher, but I beg of you to profit by my experience, and save yourself from sorrow and bitter disappointment."

The advice was good and the boy should have heeded it, but if he did, he was an exception to the general rule, not only as it applies to boys, but as it applies to people in general.

The experience of others, either for weal or woe, is very difficult to appreciate. Human nature, in its weakness, demands personal experience, and is seldom satisfied without it.

The boy wants to see for himself, how near he can come to the edge, without stepping over the line, however dangerous the ground may be. His best friends may warn him, and wrecks of humanity may be all about him, but he must know for himself.

This is true, not only of habits that lead to dissipation, but it is true of many other things. If at all observing he notices that indifference to business, and carelessness, are practices that lead to failure. That little acts of dishonesty and deception, foster crime, but the object lessons that obstruct the pathway of life are not enough, he must try the experiment for himself.

The girl becomes a little reckless, and drifts out from the restraining influences of home, confident that no harm can come to her. She may be warned, but pleadings and warnings are in vain. She must learn by experience.

There are thousands of middle aged men in business, who are burning the candle at both ends. They are in the prime of life, so far as age is concerned, but they bear the marks of premature old age. They are keyed up to the highest tension twelve months in the year. The days are not long enough to satisfy ambition, and the Sundays are a waste of time.

The thread of life is a tender cord,

waiting for this class of suicides. Their sudden taking off is not without warning, for the issue of every paper contains obituary notices of this class.

While the school of experience is a profitable school, and its lessons, in many respects, are the most valuable that can come to any life, it is well to remember that cause and effect are elements that produce results.

The drink habit may undermine one constitution more rapidly than another. Abuse of the laws of health may lead to physical weakness more rapidly in one case than another, but in either case the penalty must be paid.

It is not necessary for you to put your hand in the fire to test the quality of heat, and it is just as unnecessary and unreasonable to experiment with elements of danger that never fall in results.

The American people are not lacking in opportunities for experience. Neither are they slow in improving them. The age is so rapid and the pace so swift, that it is easy to move with the current.

The best experience that comes to any life, is largely tinged with observation. People who rush along regardless of consequences to either health or morals, may acquire experience rapidly, but it pays to take a little time off, now and then, for observation. There are some highways that lead to failure, and they are easily recognized.

The tendency of the age is revolutionary, and many of the old landmarks are obliterated. The faith of the fathers was good enough for the people who were active in church and state fifty years ago, but a little slow for the new century.

The atmosphere is heavily laden with moral and political reform and in the wild chase for new creeds and untested measures, the danger line is ignored.

While the age is progressive and ambition prompts to keep pace with the procession, there are some principles that are vital to permanent welfare, and they should never be abandoned. It is well to be a postmaster in the school of experience, but it is never safe to experiment with practices that lead to failure.

## GERMANY'S POSITION

Whether Germany will accept the recommendations of its representative that the blockade of Venezuela be raised, pending the negotiations, remains to be seen. There are, however, some reasons to believe that the next few days will put an end to a situation which, as the San Carlos incident showed, is fraught with no little danger. The outburst of indignation with which the news of that affair was greeted in this country came as a surprise to Germany, and probably helped her foreign office to realize how extremely sensitive and suspicious the people of the United States are. As the feelings of the German people toward the United States also betray considerable irritation, and as the Kaiser's working might and main to establish cordial relations with this country, it is not likely that he will not insist on maintaining the blockade. Great Britain is known to desire to terminate it, and this affords no more reason why Germany should allow herself to be outdone. There is, however, no certainty in speculations based on what Germany ought to do.

Now comes Assemblyman Brittan with a bill regarding factory legislation. Mr. Brittan has had experience in just the lines he has made, his bill to fit and his opinion should count for more with the legislature than the ideas of a college professor or a theorist.

Higher education that fits the graduate and instructor for the position of bartender at a second-rate hotel takes the bread and butter out of the mouths of men who have had the opportunities to study and speak well for the college training.

The university has been having a bad smell about poker playing among its students. One boy claimed to have lost \$1,200 that he could not afford and one instructor was requested to leave.

Fire has crippled one of our city's industries to the extent of thirty thousand dollars but the owners say that they will at once start replenishing their stock and try to make up their losses.

Petty thieves seem to be at work throughout the city. Whether it is the work of local crooks or of the regular thing from the city they seem to have no element of uncertainty about where they go and what they take.

Judge Gray is letting the operators and their witnesses know that he is a judge and is a man to be respected and that he can't be outwitted by the earth though they may think so.

At last the primary election bill has made its appearance at the state legislature. It is to be hoped that it will prove satisfactory to the administration.

Now that the fire chief has a new wagon and equipment fires will become fashionable events and all firemen are expected to appear in full uniform.

its antipathy for all conservative republicans in its account of the Spooner demonstration at Madison. Poor organ.

Now ocean steamships are again reported to be in danger. Truly the bibles saying about those who go down to the sea in boats is verified day by day.

Italy has decided that it will not expend money for an exhibit at the St. Louis exposition because the tax discriminations are so great against that country.

Will there be any legislative scandals this year or will it be all quiet and the governor not have a chance to scold his unruly bad boys of the senate?

Another session of the Jackson club seems to have been on the tapis and this time the victims were Jokers themselves.

When you see the ice man drive past these days you wonder where the coal man will be next summer.

Some people forget that there ever was any opposition to Senator Spooner now that he is elected.

The Alaskan boundary question came up again in the senate and is still an unsettled question.

With no snow on the ground it begins to look like the good old winter time of 1901.

The Oshkosh Northwestern still continues on the even trend of its ways.

Roosevelt may be called to settle a soft coal argument before long.

## PRESS COMMENT

Menasha Brezo: There are lots of substitutes for fuel appearing in the papers, but mighty little in the stoves.

Appleton Post: Aguinaldo is now a patriot. At all events he is hurrahing for the old flag and an appropriation.

Evening Wisconsin: Just now, in Venezuela, the question seems to hinge more on who hit first or who hits hardest.

Milwaukee Sentinel: It would appear from their report, the tax commissioners did find time to make original investigations after all.

Marquette Star: Ella B. Usher as a political correspondent is at first amusing, then mildly entertaining, and finally and unmitigated bore.

State Journal: The "initiative and referendum" has been banged about so much that it is nearly equivalent to "irrigation and reconfusion."

Fond du Lac Reporter: Now that Dakota divorcees have been declared illegal in other states there will be no more business for Wisconsin lawyers.

Milwaukee News: If the governor and the legislature should succeed in abolishing the lobby they may rest assured that their achievement will go thundering down the corridors of time.

Vernon County Censor: Congress has suspended the tariff duty on hard coal for one year. This will be satisfying to the country if it has no other good effect.

Oshkosh Northwestern: The Lord may temper the wind to the shorn lamb, as suggested by several of our contemporaries lately, but he does not put coal in the empty bin.

Geneva Herald: The Republican party can be relied upon for effective anti-trust legislation but it refuses to enact a buncombe measure merely for political effect.

Oshkosh Times: If we are really friends of the Cubans, as we so often professed to be, then we will not destroy or even obstruct their trade for the sake of private interests.

Milwaukee News: President John Mitchell didn't object when the miners raised his salary, but he firmly declined the offer of a house. It is a wise man that profits from the experience of others.

Green Bay Gazette: A Scientist claims to have made the discovery that mud can be utilized as fuel. In the future then it will have a use outside of political campaigns.

Superior Telegram: It is easy to criticize Judge Jenkins and his resolution. But in the opinion of the Evening Telegram it is dictated by the broadest and most advanced statesmanship.

La Crosse Chronicle: It is easier to make a good impression by taking the ground that you can do the right thing better than your rival, than by trying to label right wrong. Especially when you are placing yourself in the position of having to support the wrong.

Milwaukee Sentinel: The legislature is taking up its work with a deliberation that indicates that if there is a cut-and-dried program it will be badly cut and extra dry before the end of the session.

Winneconne Local: The only way of revising the tax laws so as to give absolute and universal satisfaction is to strike some method of making the taxes of every property owner a little less than his neighbors pay on an equal amount of valuation.

Fond du Lac for Hong Kong are almost as numerous as the farwell tours of the great prima donnas. However, the general appears to have really left Thursday. Bon voyage, old man.

Madison Journal: Mr. Usher's latest fit is a political merger in which Messrs. La Follette, Spooner and others have combined to lay the nation prostrate and gorge themselves on the pickings. In this connection we note that the foot and mouth disease is breaking out in the state.

Eau Claire Telegram: That the love for the fatherland never dies out entirely, no matter how much one loves the land of their adoption is shown by the eagerness with which the foreign born citizens of this country respond to any call for assistance from the land of their birth.

Watertown Republican: Secretary of War, Root, has approved of a bill to purchase a tract of land at Camp Douglas as a training camp for the regular army. Such a camp in our state cannot fail to prove of great value to the state guard as it affords an opportunity for the state troops to train a short time every year with the regulars.

Madison Democrat: The Democrats in the legislature will do credit to their constituents and to themselves as good citizens if they shall examine with care the primary election bills and add all they can in getting as perfect a law as possible. The old moss-backed notion that it is a Democratic duty to oppose any measure proposed by Republicans whether it is right or wrong cannot be too fully abandoned.

Eau Claire Leader: The session of the legislature at Madison has opened up under the most favorable auspices. Thus far everything points to a continuation of the prevailing harmony. Things are far better than most men expected. This entire cordiality may be distributed later on, as various issues arise, but at present the best of good feeling prevails between the assembled legislators at the state capitol.

Fond du Lac Reporter: The proposed amendment to the game laws permitting a man to hunt on his own property without a license should pass. This would permit the farmer to take down his gun and shoot a squirrel, a rabbit, a partridge or prairie chicken or duck without first driving to the county seat to secure a license. More than this he would not be subjected to the imposition of paying a license for the privilege of killing the rabbits that destroy his fruit trees.

Fond du Lac Commonwealth: J. Pierpont Morgan has furnished new evidence as to his own business sagacity by withdrawing opposition to conservative trust legislation. This course is especially wise for the reason that legislation on this subject is sure to be enacted, anyhow, and opposition from the principal trust promoter in the country would be likely to encourage radical measures.

Filipino is an Alien. Washington, Jan. 31.—Justice C. Baugh of the District Supreme court decided that Antonio M. Oplaso y De Yeaza, the young Filipino, is still an alien and entitled to become a citizen of the United States. His declaration was ordered to be received, but an appeal was taken to the District Court of Appeals.

To Build Up Navy. Washington, Jan. 31.—Congressman Dayton of West Virginia, a member of the house committee on naval affairs, introduced a resolution calling upon the navy department for information concerning the plans which the department experts consider most advantageous for building up the navy.

Trust Programme Adopted. Washington, Jan. 31.—As a result of a series of conferences between the Republican leaders in the senate a program has been adopted in regard to trust legislation which is proclaimed as a partial compliance with the recommendations of the president and the attorney general.

Educational Test. Washington, Jan. 31.—Senator Lodge, who has been the especial champion of the educational test for immigrants, has agreed to allow that provision of the immigration bill to be withdrawn, providing unanimous consent can be had for the passage of the bill afterward.

# COMET APPEARS IN THE HEAVENS

IS TRAVELING TOWARDS THE  
EARTH VERY RAPIDLY.

THERE IS NO DANGER FELT

Professor Comstock of the University  
Observatory Makes a State-  
ment.

Many Janesville people do not know that for some days past astronomers have been studying the heavens with great fear lest the comet recently discovered was in the direct path of the earth and that the two would come together at no distant date. In fact but few Janesville people probably knew that there had been a new comet discovered at all.

**Is Growing Steadily**  
The comet was first seen on January 15th and is now rapidly careening toward mother earth at the enormous rate of many thousands miles a minute. The astronomer who first saw it named it the Giacobini and it was then thought that it would strike the earth about March 15 at some point.

**Is Perfectly Safe**  
Word now comes from the state observatory that the comet will not come in contact with the earth at all. Professor Comstock who has been most carefully watching its course says that it will deflect from the earth's orbit and that the world is safe for another decade or so at least.

**His Statement**  
"This comet will not strike the earth," said Professor Comstock this morning. "However, although it is now at a greater distance from us than the sun, it will continually grow brighter until before the middle of March it will be ten times more brilliant than it now appears."

"The Giacobini comet was discovered Jan. 15, but it did not become definitely visible until Jan. 19. At present it is almost visible to the naked eye in the evening sky in the square in Pegasus."

## JUDGE EXCLUDES ALL SPECTATORS

Are Barred from Hearing Defendant's  
Testimony in Wheeler Di-  
vorce Case.

Judge Sale is engaged today in the circuit court chambers in the trial of a divorce case of Maurice W. Wheeler vs. Belle V. Wheeler which was referred to him for trial. The plaintiff gives cruel and inhuman treatment as his ground of complaint. This is denied by the defendant who is making a fight to defeat the granting of the divorce. The testimony on the part of the defendant was quite racy and all witnesses and bystanders were excluded from the room by the judge. The parties reside near Shopiere, Fethers, Jeffris & Mount appear for the plaintiff and E. D. McGowan for the defendant.

## FORMER MAYOR OF BELOIT DIES

D. S. Foster, a Veteran Resident of  
the State Passed Away This  
Morning.

(Special to The Gazette.)  
Beloit, Jan. 31.—D. S. Foster, aged seventy-seven and for fifty years a resident of Beloit died this morning of stomach trouble. Mr. Foster was three times mayor of Beloit and his son, P. H. Foster, is its present city clerk. The deceased came to Wisconsin in the early fifties and has since been one of the line city's most prosperous business men. He leaves a widow and four sons, John, Frank, Joseph and P. H. Foster, to mourn his loss.

## JEFFRIS COMPANY INVADE KENTUCKY

Are Principal Owners of Kentucky  
River Poplar Co.—Two Saw  
Mills Now Running.

The Jeffris company of this city are interested in extensive lumber interests in Kentucky where they own thousands of acres of poplar timber. The new company is called the Kentucky River Poplar Co., and already have saw mills at Frankfort and Valley View, where they are turning out poplar lumber as fast as the logs can be brought to the mills. They have one contract with the Pullman Car company for over \$200,000 worth of lumber and at present the entire output of the mills is being sent to them to be used in the car shops.

## SEWERAGE PLANS FOR EDGERTON

Edward Ruger Completes His Work—  
People Will Vote on Sys-  
tem in Spring.

Edward Ruger, of this city, who was employed to prepare plans, profiles and specifications for a sewerage system in Edgerton, has completed his work and turned the papers over to the city. It will be left to a vote of the people at the spring election to decide whether or not the system will be built.

## CURTIS CHOSEN BADGER COACH

FORMER "VARSITY" TACKLE TO  
TAKE KING'S PLACE.

WELL KNOWN IN JANESVILLE

His Home is in Madison, and H  
Coached Kansas Last  
Fall.

Arthur H. Curtis, captain and right  
tackle of the 1901 "Varsity" football  
team was last evening elected to  
the position of head coach of the  
Janesville team for next year at a  
salary of \$18,000. The action of the  
athletic board was unanimous. The  
choice is a popular one and means  
that the graduate system will be  
tried at the "Varsity" for the first  
time. The election was the result  
of a thorough investigation of the  
men available by a committee con-  
sisting of Prof. Bashford and Graduate  
Manager Kirkpatrick and the opinion  
of the committee was that Curtis  
was the right man for the place under  
any system, being better qualified  
than the eastern men that had made  
application.

**No Assistant Named**  
No names were mentioned for as-  
sistant, that matter being left with  
the committee above to continue the  
investigation and report at the next  
meeting of the board. It was re-  
ported this evening that Charles  
Carthy has decided to withdraw his  
offer to the board as assistant coach,  
but McCarthy denies the report. The  
sentiment of the students is strongly  
in favor of him for assistant, although  
a Harvard man has applied for the  
place. The selection of a coach for  
the freshman team has also been left  
with the committee.

**King Resolution**  
The board unanimously passed the  
following resolution in appreciation  
of the work of Phil King while at  
Janesville:

Resolved, That we, the members of  
the board of directors of the Athletic  
association of the university of Wis-  
consin, here personally and officially  
record our high appreciation of Mr.  
Phil King as a coach and of the  
great services he has rendered the  
cause of athletics in the university  
and our profound regret that under  
existing circumstances he cannot  
continue in the position that he has  
filled with so much credit and satis-  
faction for the last seven years; that  
we extend to him our warm personal  
regret and our best wishes for his  
future success and happiness.

**HEAVY HORSES  
BRING BIG PRICES**

The Schlitz Brewing Company Shipped  
Six Valuable Animals from  
Here Yesterday.

McLay Brothers yesterday shipped to  
the Schlitz Brewing Co., of Mil-  
waukee six valuable Clydesdale horses  
that brought a small fortune.

The horses were raised on the Wal-  
ter Little farm near this city and two  
of them weighed over 3,500 pounds  
and brought Mr. Little \$600 for this  
one pair. The horse market in Rock  
county is once more on a firm foot-  
ing and outside buyers are nume-  
rous in the local field, paying the high-  
est prices for fine drivers and work  
stock.

This was a busy day around most  
of the warehouses in this city. Since  
early this morning wagons loaded  
with tobacco have been coming in  
from all directions and the streets  
around the warehouses were block-  
ed with wagons waiting for their turn  
to unload.

**OFFICERS' REPORTS  
TO BE PRESENTED**

City Officers Who Failed to Make  
Their Reports Will do It  
Monday Night.

It is expected that Street Com-  
missioner Fredericks' annual report,  
Chief Hogan's report and the report  
of H. C. Klein as light inspector will  
be presented at the council meeting  
Monday night. The charter calls  
for a monthly report from Chief Ho-  
gan and from the light inspector and  
an annual report from the street com-  
missioner.

**IN THE VALLEY OF THE SHADOW**

Mrs. James Harris  
The funeral of the late Mrs. James  
Harris was held this afternoon at  
two o'clock from the family residence  
on South Jackson street. The ser-  
vices were conducted by Rev. Jen-  
kins Lloyd Jones of Chicago and Rev.  
Robert C. Denison of this city. Rev.  
Jones was formerly pastor of All  
Souls' church in this city and Mrs.  
Harris was a member of his congrega-  
tion. He spoke touchingly of the  
deceased and offered consolation and  
comfort to the members of the bereaved  
family. The interment was at  
Oak Hill cemetery, the pall bearers  
being J. M. Bostwick, L. B. Carle, W.  
H. Greenman, J. W. St. John, Wm.  
Smith and W. H. Maclean.

Mrs. Cyrus Bliss  
The remains of the late Mrs. Cy-  
rus Bliss, who died at Oshkosh on  
Tuesday arrived in the city Friday  
noon and were taken to Oak Hill  
cemetery for interment beside her  
husband who died several years ago.

## GAZETTE INSTALLS FAST NEW PRESS

INCREASED CIRCULATION DE-  
MANDED THE MOST IMPROVED.

THE RESULT OF RURAL ROUTES

Farmers Now Want Their Daily Pa-  
per, Hence the Necessity  
for Change.

Owing to the fact that the Gazette  
is installing a new fast flat bed Dis-  
patch printing press for the use of  
the daily, this afternoon's issue is  
printed at the Recorder office. The  
new press will be in operation by  
Monday and from then on the Daily  
Gazette will be turned out at twice the  
capacity per hour that it has been.

**Model Press.**  
The new press, which is being in-  
stalled by Martin Heumos, who repre-  
sents Barnhardt Bros. & Spindler, of  
Chicago, from whom the press was  
bought, is called the Dispatch and is  
the fastest model of flat bed news-  
paper presses made. It is manufac-  
tured by the Babcock people whose presses  
are known to every old "print" in  
the country.

**Increased Circulation**  
The installation of the new press  
is brought about by the increased de-  
mand of the farmers for the daily pa-  
per and before the first of next year  
it is expected that as many Gazettes  
will be in circulation throughout the  
county as are daily distributed in the  
city. Rural mail routes and the in-  
terurban roads bring the farmer into  
closer connection with city life than  
heretofore and to keep up with the  
times he must have the daily paper.

**Doubled Capacity**  
The Dispatch press can turn out  
papers even faster than a man can  
feed them and has twice the ca-  
pacity of the old press that the Ga-  
zette was using. From now on cir-  
culators will be sent out through the  
county to secure the subscriptions  
for the daily and everything points to  
the capacity of the press being push-  
ed to turn out papers enough to sat-  
isfy the wants of the country readers  
before long.

## TO ADJUST RATIO OF MONEY METALS

### WOULD HOLD A CONFERENCE

Commission of Three Experts to Act as Representatives of the United States to Hold Consultation With Mexico and China.

Washington, Jan. 31.—The executive branch of the government is not disposed to cease its efforts to bring about an adjustment of the ratio of gold and silver currency in the Orient and other silver-using countries with the mere presentation to Congress of the Mexican and Chinese notes. A commission to consider the subject and present conclusions will be asked of Congress.

#### Root Seeks Remedy.

Secretary Root, who is opposed to the amended Philippine currency bill, is particularly urgent in seeking to remedy the evil financial conditions in the Philippines caused in large part by fluctuating currency ratios, while Secretary Hay is interested in the proposition because it promises to alleviate at once the friction now existing as a result of the Chinese indemnity question. The secretary also is looking into the future toward the enlargement of American trade in South and Central America, where silver still is the standard of value.

#### To Ask for Commission.

The proposition will be laid before Congress to appoint a commission of three members, men expert in financial matters, to act as representatives of the United States in an international money conference on the lines indicated by Mexico and China or in consultation directly with the interested powers or, in fact, along any line of international exchange that promises success. Little legislative action is required at this stage and it is probable that an apportionment of \$5,000 for the expenses of each commissioner will meet the needs of the state department at this time.

#### Ambassador is Pleased.

It is made plain that the commission will have no power to commit the United States government to any change in its currency system. Its conclusions will be all ad referendum and nothing can be made of them unless Congress regards them with favor.

The Mexican ambassador, Senor De Azpiroz, called at the state department and extended to Secretary Hay and, through him, to the president his warmest thanks for the able manner in which the communications of Mexico and China had been presented to Congress.

#### QUAY NEAR CRISIS.

Statehood as Appropriations Rider Will Test His Strength.

Washington, Jan. 31.—Senator Quay assured President Roosevelt that if the minority of the senate, which he charges has been filibustering against the omnibus statehood bill, continues its present course until the close of the session an extra session will become necessary.

"If they do not give us a vote on the statehood bill," said Senator Quay, "the session will close with a number of important appropriation bills unacted on. We are entirely within our rights in adding the statehood bill to appropriation bills. The president of the senate can rule them out on a point of order as not being germane to the appropriation bills, but we have the right of appeal from his decision."

It will be on such an appeal that Senator Quay's strength will be put to a final test. A number of senators who are ardently in favor of statehood for the territories do not believe that the omnibus bill is entitled to consideration as a rider on an appropriation bill. Senator Perkins of California is one of these. Senator Foster of Washington is another. They have indicated that they may vote to sustain the president of the senate if he should rule the amendments out of order.

Senator Quay's committee on organization, conduct and expenditures of the executive departments held a meeting and voted by an overwhelming majority to order a favorable report on the statehood bill as a rider to the agricultural appropriation bill. It probably was the first meeting at the committee has held in fifteen years. No senator can recall when it ever met before.

There are signs that several opponents of the statehood bill who are interested in the ratification of the Cuban treaty are becoming restive under the discipline imposed on them by the old-time leaders. They may decide to vote for statehood as a means of securing action on matters in which they are interested.

#### Lake Dredges.

Washington, Jan. 31.—Senator-elect Hopkins, Representative-elect Lorimer and Speaker-to-be Cannon were at the white house. The former two discussed with the president the provision in the last river and harbor appropriation act requiring the construction on the Great Lakes by the government of dredges to be used in the spring freshets and for harbor improvements. Dredgers all along the lakes are exerting all the influence they can command to persuade the government not to proceed with the construction of dredges for the reason that it would deprive them of considerable revenue and would ultimately result in driving them out of business.

## Why Syrup of Figs is the best family laxative

It is pure.

#### Taylor Accepts Invitation.

Washington, Jan. 31.—Rear Admiral Henry C. Taylor, chief of the bureau of navigation, in reply to a letter from Gov. Durbill of Indiana inviting him to Indianapolis, where a sword will be presented him Feb. 23 as a token of the appreciation of the people of Indiana for his services as commander of the battleship Indiana during the Spanish war, has forwarded his acceptance of the invitation. In his letter he expresses sincere thanks and full appreciation of the honor conferred upon him, especially expressing appreciation of the legislative act of recognition.

#### Rockefeller Gave the Money.

Washington, Jan. 31.—It develops that the subscription of \$100,000 a year for a period of ten years for the promotion of educational work in the United States is the gift of John D. Rockefeller, Sr. The general educational board recently chartered by congress for the promotion of this work has organized. One of the chief objects is the promotion of rural free schools in the United States.

#### Favors Boundary Treaty.

Washington, Jan. 31.—The senate committee on foreign relations unanimously authorized favorable reports upon the Alaskan boundary treaty and the protocol for the extension of time for the ratification of the Cuban reciprocity treaty, but failed to reach a decision upon the Panama canal treaty. The Panama treaty was opposed by Senator Morgan, who argued against it as it now stands.

#### Gardner Postal Bill.

Washington, Jan. 31.—The house committee on postoffices and post roads authorized a favorable report of the bill introduced by Mr. Gardner of Michigan to "prevent robbing the mails and to provide a safer and easier method of sending money by mail." It provides for a system of post check notes which are made exchangeable at money order postoffice and banks.

Letter to Mr. John Acker, Janesville, Wis.

Dear Sir: As a painter you probably use lead and oil, and would naturally object to Devco Ready Paint. Let us have a few words on the subject.

Painters say a good lead and oil job will last three years, and they say a house ought to be painted once in three years.

We take them to mean that their work is good for three years, no more and no less, or not much more and not much less.

Do you want your work to last longer? What do you say to six years? You'd have to have twice as much work; you know, or you'd be losing money.

Consider the case of your doctor. You call him in. Is it better for him to get your child out of bed tomorrow, or keep him sick for a month?

You prefer a quick doctor. So does everyone else in your town and county, and state. We are all alike; we all want our doctors quick. A doctor that gets his patients up quick, is the doctor that gets the patients—gets rich too, if he isn't run to death.

It's about the same with a painter isn't it? Suppose you paint Devco, and your competitor objects to Devco; your work lasts six years and his work three. You cost your customers half; he costs double. Who'll get the business; and who'll go to Texas?

Devco lasts six years—not exactly—we know of its lasting seventeen—and it never wears out in less than three, so far as we know. On a windy, sandy seaside house, it lasts three years. Lead and oil lasts one year there.

Devco lasts two or three times as long as lead and oil; and it's going to paint your town. Do you want to be in it?

Yours truly,

F. W. DEVCO & CO.  
Talk with J. P. Baker about it.

## DOMESTIC TRADE IS PROSPEROUS

### FUEL CAUSES LITTLE DELAY

Manufacturing Plants Are Busy and Prices for Finished Products Rule Firm—Iron and Steel Industry Suffers to Benefit of Other Lines.

New York, Jan. 31.—"Domestic trade and industry continue to prosper, while the fuel situation has grown less disturbing through the special efforts of transporters, added to no small degree by mild weather. Distribution of other products has been restricted by the discrimination in favor of coal, and shippers are importunate. Clearance sales are about ended, leaving only small stocks of winter goods. Advance business in spring deliveries is very heavy, and fall contracts are also placed liberally." The foregoing is from the weekly trade review of R. G. Dun & Co's. It continues:

#### First Cost Is Higher.

"In most cases where there is no delay on fuel account manufacturing plants are busy, though cost of materials and labor is very high. Firm prices for finished products are consequently to be expected. Favorable returns of railway earnings are constantly issued, figures thus far available showing an increase of 5.7 per cent over last year and 17.9 per cent over 1901.

"Millions of loaded cars and thousands of tons of coke piled in the yards at Connelville tell the story of conditions in the iron and steel industry. Furnaces are closing because of the fuel shortage. By giving coal, live stock and perishable goods precedence over all other freight the railroads helped consumers everywhere, but at the expense of the leading manufacturing industry.

#### Many Plants Close.

"Many plants are closed or running only part time, and few orders for distant delivery are either sought or offered owing to the uncertainty as to when normal conditions will prevail.

"It is stated that deliveries of pig iron to the leading consumer are several months behind, and spot Bessemer has risen sharply, yet there is much irregularity, as evidenced by the decline in cast pipe. Locomotives are being turned out of the shops with record-breaking rapidity, and other railway structural equipment is in equally good demand, while structural material is still a feature. Many additional contracts for bridge building are recorded.

#### Buyers Crowd Market.

"Footwear is firm, with an advancing tendency, although list prices are without change. New business is light, but most factories have abundant orders on hand, and there are many buyers in the market.

"Both sole and upper leather are more active, shoe factories taking freely, especially of hemlock sole. Large quantities of Chicago packer hides sold at unchanged prices, and foreign dry hides are strong. A better inquiry is noted for cotton goods. A number of lines have advanced in price, the upward movement of raw cotton having a natural effect. Men's wear woollens and worsteds for fall are now fully opened. There is no evidence of speculative activity, which emphasizes the wholesome condition of the market, and many lines have been withdrawn.

## Constipation Will Undermine Your Health.

### Mull's Grape Tonic Cures Constipation.

When the sewer of a city becomes stopped up, the refuse backs into the streets where it decays and rots, spreading disease-creating germs throughout the entire city. An epidemic of sickness follows. It is the same way when the bowels fail to work. The undigested food backs into the system and there it rots and decays. From this festering mass the blood saps up all the disease germs, and at every heart beat carries them to every tissue, just as the water works of a city forces impure water into every house. The only way to cure a condition like this is to cure the constipation. Pills and the ordinary cathartics will do no good.

**MULL'S GRAPE TONIC** is a crushed fruit tonic-laxative which permanently cures the affliction. The tonic properties contained in the grape go into every afflicted tissue and creates strength and health. It will quickly restore lost flesh and make rich, red blood. As a laxative its action is immediate and positive, gentle and natural. Mull's Grape Tonic is guaranteed or money back.

## MISS SARAH FINLEY,

Vice-President of the Palmetto Club, Memphis, Tenn.

**WINE OF CARDUI** is a thoroughly scientific and modern remedy, meeting the needs of the modern woman in the modern way—without the torture of an operation. Wine of Cardui has cured them in the privacy of their homes and it has found a place in the hearts of American women that no other medicine has found. In their gratitude over 10,000 American women have written letters commending Wine of Cardui. Wine of Cardui meets their wants as no other medicine does. It sustains the young girl at the shock of her entrance to womanhood. Women who take Wine of Cardui have little discomfort during pregnancy and little pain at childbirth. When the change of life appears they enter a happy, healthy old age. Every month it comes to the rescue to assist Nature in throwing the impurities from the body.

following praise on Wine of Cardui:

"Among the numerous medicines placed before suffering women for their relief none can touch McElree's Wine of Cardui. It towers above them all as a reliable female remedy. It simply drives pain and disease away and restores health in an incredibly short period. I have taken great interest in this medicine for the past two years, since it brought health and strength to me. I have also recommended it to a number of my friends and they who have used it speak of it in the highest terms and I feel that it is praise well bestowed."

If you are suffering from female weakness Wine of Cardui is the medicine you need.

You can have health the same as Miss Finley if you will take the Wine of Cardui treatment. If you need advice further than the complete directions given on the bottle, address The Ladies Advisory Department, Chattanooga Med. Co., Chattanooga, Tenn.

**WINE of CARDUI** A million suffering women have found relief in Wine of Cardui.

## SIX WOMEN VICTIMS OF POISON IN COFFEE

Mrs. Nancy Birch, a Rich Widow of Louisville, and Her Guests Drink Corrosive Sublimate.

Louisville, Ky., Jan. 31.—Six women were poisoned by corrosive sublimate being put in their coffee and Mrs. Nancy Birch, a rich widow, may die. It is not known how or when the poison could have been put in the coffee, as the servant drank it and was among those seriously attacked. The only member of the Birch family present at the meal who did not drink the poisoned coffee was Birch Cooper, a grandson of Mrs. Birch.

Mrs. Birch received an anonymous letter warning her that she would be poisoned and shortly before the death of her husband, some time ago, he received similar letters. The police announce that they expect to make an arrest shortly. Mrs. Birch, whose condition is critical, is the widow of George Birch, superintendent of the Bourbon stock yards, and is aged.

## TO ERECT MONUMENT FOR WILLIAM M'KINLEY

Antietam Battlefield Commission Awards Contract for Shaft to Commemorate Soldier's Valor.

Columbus, Ohio, Jan. 31.—The spot on the battlefield on Antietam where Commissary Sergeant William McKinley stood on the evening of Sept. 19, 1862, under fire and served hot coffee and rations to his comrades is to be marked by an appropriate monument. The Antietam battlefield commission has awarded the contract for its erection. The cost will be \$5,000.

On the top of the right-hand corner of the first die of the monument is a figure of peace with two busts of McKinley, one representing him as he appeared at the time of his enlistment, the other as he was at Buffalo just before the firing of the fatal shot.

The busts are surrounded by a wreath of laurel leaves resting on two crossed sabers. On the face of the die is a representation of a battle scene with a commissary wagon drawn up in the foreground and the sergeant serving rations to his comrades.

## JOHN D. ROCKEFELLER HAS NEW GRANDSON

Attempted Robbery at Home of Oil King's Daughter Reveals Presence of Little Heir.

New York, Jan. 31.—That John D. Rockefeller has a grandson has been made public through the attempted robbery of the home of his daughter, Mrs. E. Parmelee Prentice, 5 West Fifty-third street.

This new heir to the Rockefeller millions was born a few days before Christmas, but the fact was kept from the public. Mr. Rockefeller lost his first grandson, little "Jack" McCormick, about two years ago.

Mrs. Prentice, who has been under the care of a trained nurse ever since the birth of her son, has recovered almost entirely from the excitement of the struggle between her servants and the burglars.

During all the confusion attendant upon the discovery of the burglars the new heir to the Rockefeller millions reposed contentedly in the arms of his nurse.

## DECLINE TO HEAR MR. JEWETT

Indiana State Senator Votes Against His Speaking.

Indianapolis, Ind., Jan. 31.—Charles L. Jewett of New Albany, former congressman from the Third district, was in the senate as a visitor and was asked to make an address by Senator Fortune and spoke for a few moments. When the senate was called on to vote the motion of invitation there was one loud "no" from the Democratic side, evidently from some member who could not forget Mr. Jewett's desertion of the party to the Republicans. Then a delegation of Democrats walked from the senate chamber.

## STUDENTS PLAN FOR CIRCUS

University Entertainment Will Be on More Elaborate Scale This Year.

Madison, Wis., Jan. 31.—(Special).—The university circus, which is to be given in the gymnasium on March 7, promises to be an interesting affair. It will be much like the circus that was given two years ago, but will be on a more elaborate scale. The circus will run during the afternoon and evening, and besides the main show, with its attendant menagerie, will have several side shows. Everything will be on the plan of the old-fashioned country circus. The work in the show proper will be mainly acrobatic with special features by the different men. The Sphinx-American

which was sold at the last circus, will be again issued and will as before contain many jokes and stories in which university students will be the chief characters.
